Healthy Heart Challenge Cookbook

Forward

April 2017

To our participants,

Thank you to all of this year's Healthy Heart Challenge participants. With your involvement we have raised \$420 for the American Heart Association.

As a special Thank You for your participation and completion of the Healthy Heart Challenge, we have compiled together the recipes submitted from participants during week 4 as well as some additional tasty choices for you to treat yourself too.

The goal was for participants to submit a "healthy" recipe; we did not check calories, sodium, fat, sugar, etc., so we cannot guarantee everything is the "healthiest" option, but we do believe all of these will be a delicious addition to your cooking repertoire.

Thank you again from Cory and the YMCA Staff for making the YMCA what it is.

Sincerely,

A handwritten signature in black ink, appearing to read "Cory Greenman". The signature is fluid and cursive, with a long horizontal stroke at the end.

Helpful Hints

- ◆ When substituting a glass pan, reduce the baking temp by 25° F and check for doneness at least 5 min early.
- ◆ If using a deeper pan, increase the baking time by 1/4 and slightly lower the oven temp (5-10° F)
- ◆ If using a shallower pan, decrease the baking time by 1/4 and slightly raise the oven temp (5-10° F)
- ◆ For jumbo cupcakes, bake in a 350° F oven for approximately 25 minutes
- ◆ For mini cupcakes, bake in a 350° F oven for approximately 10-15 minutes
- ◆ Cream will not curdle when poured over fruits if you add a pinch of baking soda to the cream before serving
- ◆ Cottage cheese can be used in place of sour cream when making dips. Just place it in a blender until it is creamed
- ◆ Cream cheese can be colored with food coloring when used as a filler such as between rolled sandwiches
- ◆ When you poach eggs, try adding a little vinegar and salt to the water. This will set the eggs and keep them in shape
- ◆ When beating egg whites, add a teaspoon of cold water and you will almost double the quantity
- ◆ When cooking wild game (venison/pheasant/etc.) use a cola to soak and remove the gamey flavor
- ◆ Thaw out your frozen fish in milk, it will remove the frozen taste and make it more fresh caught.
